IEG: T.GOLD 2023 EXPANDS ITS SHOWCASE OF JEWELLERY TECHNOLOGIES AND MACHINERY

- The largest international exhibition of innovation in the jewellery industry returns on 20-24 January 2023, at the same time as Vicenzaoro January
- The upcoming fair boasts expanded floor space, hosting an even more full range of exhibitors, attesting to the strategic value of the Made in Italy and international jewellery industry
- It promises to be a showcase for the technologies driving the competitiveness of companies investing in quality, sustainable processes and innovative manufacturing

<https://www.vicenzaoro.com/en/t-gold>

Vicenza (Italy), 20-24th January 2023 – The **Vicenza exhibition centre** will once more host the most important international exhibition of **advanced technologies for the jewellery industry: T.GOLD**, the **number one international showcase for innovation**, featuring the most advanced jewellery machinery and the most recent developments in gold and jewellery manufacturing. Organised by **IEG - Italian Exhibition Group**, it will be held on **20-24 January 2023**, at the same time as **Vicenzaoro January**, the leading international exhibition for the gold and jewellery industry.

With an **even richer offering** of technological solutions, T.GOLD presents an **overview of new solutions for the production of gold and jewellery**, attesting to the **strategic value of specialisation and manufacturing** in driving competition in the global marketplace.

AN EXPANDED OFFERING: INCREASED EXHIBITION SPACE

T.GOLD launches next year's calendar of trade fairs with an **expanded offering: more exhibition space** to host even more **top jewellery industry players** (+10%) and showcase an even larger range of technologies. The **strong representation of the Made in Italy excellence, along with the very best from the international panorama**, makes this an unbeatable occasion for jewellery companies to **fine tune their value chain** with the highest quality suppliers and the most innovative technologies, thus growing their own **competitiveness**.

Over the 5 days of the exhibition, to be held in **Hall 9**, buyers will be able to review innovations in six macro-categories: **casting, mechanical processing, digital prototyping and production, finishing, refining and recovery, bench tools and materials**.

THE TOP PLAYERS FROM ITALY AND ABROAD

Italian companies stand out in the industry for their **leadership in technological know-how**, the outcome of centuries of excellence recognised around the world. Thanks to its partnership with **AFEMO** (Italian Association of Jewellery Machinery Manufacturers and Exporters) and collaboration with **ICE - Italian Trade and Investment Agency**, the exhibition will be hosting world renowned companies like **Legor Group Spa, SISMA Spa, Italmimpianti and B.T.T. Impianti (LEM Industries Group)**. These leading ambassadors of the Made in Italy brand will be joined at the exhibition by the most well-known international companies, especially from **Germany**.

TECHNOLOGY AS A DRIVER OF INNOVATION IN THE JEWELLERY INDUSTRY

With **T.GOLD**, IEG offers jewellery companies **the best international platform for integrating technologies** capable of adding value to their entire production process. As such, it is a service for the entire industry, from designer to manufacturer, brands to industry professionals in general, enabling them to **fine tune their supply chains** and acting as a fully fledged **business accelerator** for companies who have founded their business on quality, sustainable processes and innovation.

This press release contains forecasted elements and estimations that reflect current management opinions ("forward-looking statements") especially regarding future managerial performances, investments, cash flow trends and financial organization evolution. By nature, forward-looking statements have an element of risk and uncertainty since they depend on future events. The effective results may therefore differ, even significantly, to those announced due to multiple factors including, merely by way of example: the catering market's foreign trends and tourist flows in Italy, market trends in the gold-jewellery industry and in the green economy; developments in the price of raw materials; general macro-economic conditions; geo-political factors and changes in the legislative framework. Furthermore, the information in this press release does not claim to be complete, nor has it been verified by independent third parties. The forecasts, estimations and objectives presented herein are based on information available to the Company at the press release issue date
